

Adobe Photoshop Level 2

Taught on the current Adobe Cloud Version

Course Length: 1 Day

Course Delivery: Traditional Classroom · Online Live · On Demand

Overview

Students will modify digital images and learn additional techniques for creating image effects. After completing this course, the student will be able to use Photoshop to work with multiple layers, use color and gradient fills and adjust color, create layer masks, create and edit vector shapes, and apply a variety of creative effects such as Puppet Warp and Liquify.

Table of Contents:
